

Luisa Plancarte

Consultant

Rendon & Asociados

Luisa Plancarte

Luisa Plancarte has more than 15 years of experience in Information Security, Project Information Management, Process Mapping and documentation of Methodologies.

Luisa Plancarte holds the Consultant position at Rendon & Asociados (2005 to date), where she has participated at Alfa and its business units in several Information Security and Process Mapping projects based on international standards, like COBIT, ISO 27001 and ITIL,

At Alfa, Luisa Plancarte participated in the definition and documentation of the Information Security Methodology (policy, guidelines, standards and procedures), and has been helping with the implementation of the methodology in Alfa Corporativo, Alliax and Petrotemex.

At Sigma Alimentos, Luisa Plancarte participated in IT process mapping and analysis, as well as documentation of policies based on COBIT.

Previously, at Neoris de México (2000-2002), Luisa Plancarte held the positions of CxNetworks Project Information Administrator and Project Manager for the definition and documentation of the project management methodology, based on ISO 9001.

Luisa Plancarte has a Bachelor degree in Computer Systems Administration from Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM).
